

CITAD^{LO}

HACKERS
ON YOUR SIDE ARE
hiring a Hero!

#isITyou

The ideal profile of a hacker is someone that received a toy as a gift at the age of eight.

First, they played with it for a couple of hours. Then their curiosity took over, so they took it apart to see what was inside and how it worked.

Hopefully, in the end they were able to put it back together. Best case scenario, the toy still worked!

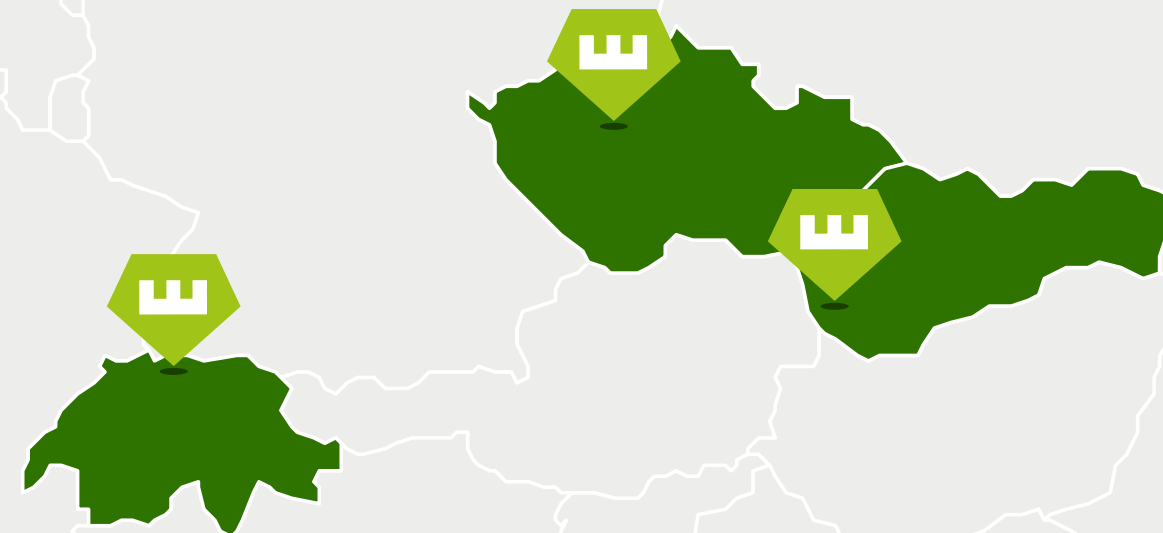

Tomáš Zátka
CEO and founder of Citadelo
